

Tiny Surveyor

Pre-Marking Robot

Mark lines from the comfort of your car!

Tiny Surveyor is a robotic pre-marker tool that will save you time, increase safety and enable you to mark out road lines automatically. With the ability to interface to any GNSS or total station for precise height measurements, the Tiny Surveyor is a versatile and reliable tool that works for eight hours on a single charge.

Upload your design file via USB to the app and watch as the Tiny Surveyor completes the marking work for you. The Samsung tablet enables you to stay in control at all times and its high weatherproof rating ensures the Tiny Surveyor can work in even the toughest environments.

Key benefits:

- Up to 10 times faster than marking out on foot
- Increase safety by following the robot from a car
- Reliable, repeatable 2-3cm accuracy
- Works as hard as you do with 8 hour battery
- Versatile to accommodate different spray can sizes
- Compact, portable design makes for easy transportation
- Use with your existing GNSS and optical survey equipment
- Works with a variety of standard file formats

Robot

The TinySurveyor is built in a strong 25 mm lightweight aluminium frame capable of withstanding outdoor weather conditions. With the large 12 inch high traction tires, the TinySurveyor can manage uneven playing fields and mark most wet pitches.

Spray Tool

The robot is equipped with a spray tool that supports any standard size aerosol can. You can use the same cans as you are already using. The only change you might need to make is to replace the nozzle with a standardised nozzle delivered with the robot.

Rugged Tablet

The rugged tablet with app is delivered with the robot. The tablet allows you to switch between autonomous mode and manual mode. The app is utilised to upload design data and for visualisation.

Specifications

| | |
|--------------------------------|---|
| Maximum speed | 7 km/h |
| Weight without battery | 18 kg |
| Battery operation time | 8 hours |
| Dimensions | 80L x 60W x 70H |
| Tyres | 12-inch, maximum-traction |
| Easily interchangeable battery | unlock and slide |
| On - board indication | Multicolour LED signal light. Operating status. |
| Can Capacity | All Standard sizes 750 ml |
| Over-the-air support | 3G/Edge |
| Positioning | GNSS RTK |
| Control | Tablet via Bluetooth |
| Motors | Dual hub |
