

The drainage specialist

IPL300R IPL300G

PIPE LASERS

The IPL300 pipe laser is one of the most robust available, with an all metal housing for superior dust and waterproofing. With a series of interchangeable legs for various pipe sizes and a huge -20% to +40% grade this is the ultimate drainage laser for the harshest work site. The next generation green beam model offers enhanced visibility, better site safety and flexibility.
