Please Read: Important Information

1 What

The AllDayRTK team advises that the Regulation 13 Certificate for the Chipping Norton (2CHP) base has been revoked by Geoscience Australia. It has been determined that the Easting component of the base has consistently exceeded the Positional Uncertainty (95%) threshold for over 8 weeks.

Consequently, we have removed the site from the AllDayRTK network until further notice.

2 When?

13/02/2024, 16:00 AEDT

3 Impact!

Real-Time corrections and RINEX data from the Chipping Norton (2CHP) base will not be available until further notice.

Users will automatically connect to nearby bases when using 04-NRST mountpoints.

If using direct 2CHP mountpoint, please changeover to 04-NRST for added redundancy.

4 Help?

If you require further information, please contact our support teams.

Thank you for your co-operation.
