Please Read: Important Information

1 What

The AllDayRTK team advises that the Regulation 13 Certificate for the Badgerys Creek (2BDC) base has been revoked by Geoscience Australia. It has been determined that the Northing component of the base has consistently exceeded the Positional Uncertainty (95%) threshold for over 8 weeks.

Consequently, a new Regulation 13 Certificate will be issued for the site by Geoscience Australia.

Corrections from 2BDC will be broadcasted with existing coordinates until the new Regulation 13 coordinates are issued.

2 When?

07/05/2025, 09:00 AEST

3 Recommendation

We advise that users check existing controls to ensure that any differences found does not affect any pre-existing or future work.

Re-localisation of jobs and control points may need to be performed to minimise the differences identified.

4 Help?

If you require further information, please contact our support teams.

Thank you for your co-operation.
