

Attention
AllDayRTK Users
New Regulation 13 Certificates
Site: Moree (MREE)

Please Read: Important Information

1 What

The AllDayRTK team will update the coordinates for **Moree (MREE)** to reflect the latest Regulation 13 Certificates. These updates occur as government agencies periodically submit new data for Regulation 13 certification.

Please note, the difference between the new and previous coordinates exceeds the positional uncertainty (PU) of the certified coordinates.

2 When?

21/04/2026, 11:00 AEST

3 Impact!

Users may notice a coordinate shift as the difference between the old and new Regulation 13 certified coordinates are outside of PU.

Positional shift of base station coordinates can impact users, which may be evident when checking against previously established survey control points and marks.

4 Recommendation

We advise that users check existing controls to ensure that any differences found does not affect any pre-existing or future work.

It may be necessary to re-localise jobs and control points to reduce discrepancies caused by the updated coordinates.

5 Help?

If you require further information, please contact our support teams.
Thank you for your co-operation.
