MAGNET Office Summit – Day 2 Agenda

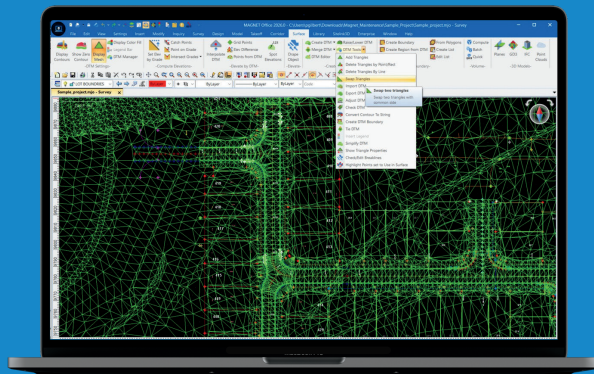

14th August 2026

Time	Session
7:45 am	Registration, Exhibition and Tea, Coffee on Arrival
8:30 am	Welcome Opening remarks and event introduction. Adam Burke Strangers Room
8:40 am	MAGNET Office 2026 Feature Review This session by Manami Barker from Topcon will give you a head start on taking full advantage of the MAGNET Office 2026 release due out in October. Manami will review and demonstrate the significant features and enhancements in the pending release. Manami Barker Strangers Room
9:40 am	PDF to Pro: Unleashing the Data Trapped in Your Plans In this workshop Peter will go through helpful routines to use when working with PDFs. From importing vector PDFs, scaling, extracting CAD data from plans, and converting “flat data” into 3D data. This will be a punchy session focused on getting more CAD value from PDFs. Peter Daley Members Dining Room Building Without Borders: Mastering IFC Workflows Jim from Topcon will lead us in this workshop on Topcon’s advancements with IFC models. Various features will be shown to extract design from the model for design review or stakeout. Jim Copley Preston Stanley Room
10:20 am	Morning Tea, Exhibition & Magnet Programmers Desk

MAGNET Office Summit – Day 2 Agenda

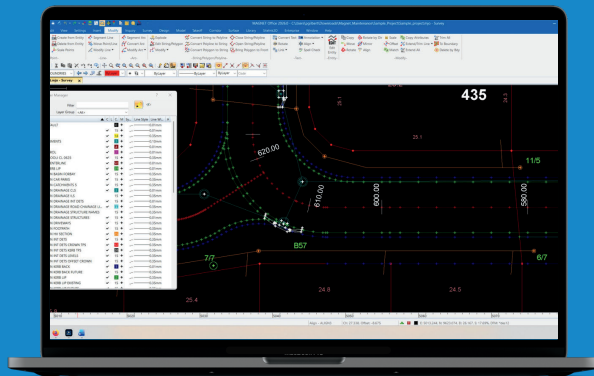

14th August 2026

Time	Session
10:50 am	The 3D Dimension: Bringing Your Surfaces to Life In this presentation Simon will highlight must-use surface editing tools, how to utilize the 3D visualisation tools, and efficient ways to edit, trim and tie in your meshes. A further outcome will be how to use these workflows to achieve quality volume deliverables. Simon Richardson Strangers Room Field of Dreams vs. Field of Reality: Data Verification This workshop will focus on how to “fact-check” and square off your everyday detail surveys in MAGNET Tools. Pat Gilbert Members Dining Room The Tie That Binds: Mastering the MAGNET Cloud Jim from Topcon will lead us in this workshop showing us how to level up our field to office productivity through MAGNET Enterprise using cloud connectivity, and the productivity tools in Enterprise to help office data managers be more efficient. Jim Copley Preston Stanley Room
12:20 pm	Lunch, Exhibition & Magnet Programmers Desk
1:05 pm	Education or Tech adoption in Survey Michelle B Strangers Room
1:15 pm	User Group Forum This is a user led session providing feedback directly to the Topcon development team around MAGNET Office feature requests and future MAGNET Office software development. David Banks Strangers Room

MAGNET Office Summit – Day 2 Agenda

14th August 2026

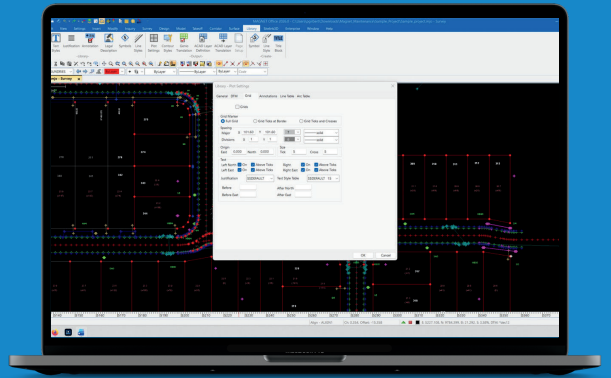

Time	Session
1:45 pm	The Final Frame: Mastering the Art of Plotting In this workshop Matt McHarg, our seasoned MAGNET Office support gun, will show us the quick wins you need to be more efficient when plotting. From automating title blocks, to managing complex plan sets, and getting the plot ratios right, this session will save you time in the office. Matt McHarg Members Dining Room Lines of Legend: Mastering MAGNET's Drafting Tools Presented by Simon this practical session will cover everything from line work and symbols, to layer management and text annotations all in the context of plotting. You'll leave this workshop with practical time saving workflows helping you send off final customer deliverables faster. Simon Richardson Preston Stanley Room
2:35 pm	Afternoon Tea, Exhibition & Magnet Programmers Desk
2:55 pm	Work Smarter, Not Harder: High-Speed Office Hacks Backing up from day one, David will again jam in as many of the must know and lesser known Magnet Office tips & tricks to speed up your CAD workflows and deliverables. This session will also be a crowd favourite! David Banks Strangers Room
3:25 pm	The Great Geospatial Reset: Topcon's Bold New Era The 2036 Vision: Mapping the Next Decade of Geospatial Closing this year's 2026 MAGNET Summit, Topcon's Ron Oberlander will deliver our keynote address on where he sees the next decade of Geospatial and Surveying—and how that future will define Topcon's tech vision. Ron Oberlander Strangers Room
